Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 11, 2008, has been entered.

Response to Amendment

2. Claims 69-76 remain pending.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Donald R. Boys (Reg. No. 35,074) on August 20, 2008.

The application has been amended as follows:

Claim 72 (currently amended) A method for providing corrosion protection in assembly of a ~~hood-like~~ sheet metal part having a circular opening with a turned-up edge, and an inner dome projecting through the opening for providing a strut support, the two parts spot-welded in a manner leaving an annular gap between the parts, the method comprising the steps of:

(a) forming a carrier in a ring shape of a size to fit over the dome and cover the annular gap, and having extending processes outwardly from the ring to engage the turned-up edge of the ~~hood-like~~ sheet metal part;

(b) attaching to the carrier ring a thermally-foamable element, such that the thermally-foamable element, with the carrier ring engaging the turned-up edge, is disposed in the annular gap; and

(c) exposing the assembly of the two metal parts in further processing to a heat sufficient to foam the thermally-foamable element to fill the space between the parts.

Allowable Subject Matter

4. Claims 69-76 are allowed.
5. The following is an examiner's statement of reasons for allowance: The above amendment removes the indefinite term "hood-like" rejected in the prior Office action. The following references are cited as representative of the prior art: US 5,160,465 A; US 5,524,907 A; US 5,678,826 A; US 5,931,474 A; US 5,979,902 A; US 6,062,624 A. US 4,901,395 is of particular relevance to claims 75 and 76; these claims are distinguished over this reference because there is neither teaching nor suggestion that grommet 20 serve to join first and second metal parts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William P. Fletcher III whose telephone number is (571) 272-1419. The examiner can normally be reached on Sunday, 5:00 AM - 12:00 PM and Monday through Friday, 5:00 AM - 3:30 PM.
